

Creación de cuenta en Github

Creación de un repositorio para llevar un portafolio de tareas

Agregar al maestro como colaborador

The screenshot shows the GitHub repository settings for 'PortfolioODC' under the 'Collaborators' tab. The left sidebar contains navigation options: General, Access (selected), Code and automation, and Security. Under 'Access', 'Collaborators' is selected. The main content area is titled 'Who has access' and shows two sections: 'PRIVATE REPOSITORY' (locked) and 'DIRECT ACCESS'. The 'DIRECT ACCESS' section indicates that 1 person has access to the repository. Below this, the 'Manage access' section shows a list of collaborators. One collaborator, 'Ismael Jimenez', is listed with a status of 'Pending Invite' and a note 'Awaiting tuxttter's response'. A green 'Add people' button is visible in the top right of the 'Manage access' section.

Registro en el programa de github for education

The screenshot shows the GitHub for Education discount request application form. The URL is 'education.github.com/discount_requests/application'. The form includes a note about being at least 13 years old and a section for 'Offer availability'. A yellow banner message states: 'Hi, MeliRosita! You were last verified as a student on Aug 14, 2023. It is not necessary for you to reverify at this time. There may be a wait period between verification and access to academic benefits.' The form asks for the user's school email address and name. The email address '230300965@ucaribe.edu.mx' is entered, and a green button labeled 'México University of Caribe, Mexico' is visible. The school name field is empty.
